Adult Training

Our experience has shown that for boys to be successful in the Boy Scout program the parent(s) must be an active participant. Through the years it has been shown that the great majority of scouts that have stuck with the program and obtained their Eagle rank were heavily supported by their parents who were also active in the Boy Scout program.

The success of every Scouting program depends on having well-trained leaders. They not only bring a quality program to their units, but they have more fun doing it. Everything we do in Scouting has a purpose. Training is the key to recognizing, understanding and achieving the purpose behind each activity. Adult leaders are the life blood of the programs that run the troop. Parents that want to participate in the troop need to be trained.

All adults that wish to participate must be trained immediately upon joining the troop. Please, initial that you understand the following trainings are required to be completed within the first 90 days of joining:
